More details about the campsites

Caravan places with electricity are located next to Laukaa Betoni Arena (Peurungantie 85, 41340 Laukaa). You can use the arena's toilets and showers around the clock. Please, make sure that there isn't any smoke inside the arena, because a false fire alarm is very expensive. We will send the bill to the person who has caused the false alarm.

We hope that the customers who have paid the caravan place with electricity would bring their own long electric wire with them. Notice that the max amount of power per place is **6 ampere**.

The tent area is located right next to the festival site. There you can find portable toilets, a water supply point and a campfire. There is also a bar located in the tent area for the first time this year. More information about the bar opening hours from this info's "Spa and Food"-section.

The caravan places without electricity are located at the nearby field (marked as P3 on the map). You can find portable toilets from the area, but there isn't a water supply point. The nearest water supply point is located at the tent-area.

Parking permissions and areas

The campsites parking lots (marked as a P3 on the map) are located at the nearby field (about 300 metres to the festival site), where you can also find the caravan places without electricity. Print the parking permit, which is sent to you by e-mail, and put it to a visible place that the traffic guides could see that you have a permit to drive to the area.

If you are coming to stay at the tent-area, I would recommend you to drop up your friend(-s) with the camping gears near the tent-area, that you don't have to carry them about 300 metres from the parking lot.
